Add silence to your space with Solo or Collab.
Privacy zone

Artopex introduces Mute Box™, available in Solo for a single person, or in Collab for meetings with 2 to 4 colleagues. Sometimes a refuge, sometimes an enclave for a multimedia meeting, Mute Box improves privacy and wellness in open areas.
Most of the workspaces of today are designed as open areas to promote the exchange of ideas between colleagues, to generate productivity, to create synergy between teams, etc. It’s important to keep in mind that the balance of a workspace ecosystem rests on its ability to offer areas where you can have a private conversation or work as a team and concentrate without bothering others. The Mute Box complements open spaces by offering compact, acoustically optimized booths that can be integrated anywhere in an open area.

**Optimized acoustics**
- Double glass walls with 3-inch air chambers
- High density soundproof felt interior, Class A
- Soundproof door seals
- Insulating wool in the frame and laminate walls

**Mute Box Solo**
- White enamel frame, Anodized hardware, Ginger Root laminate, Mist felt and Black carpet.

**Furniture**
- Adjustable Crema and Vortex Lab stools.
The Mute Box for a single occupant is compact and designed to provide a high level of privacy. A laminate shelf has been specifically designed for this model.

The booth can be ordered without furniture or accessories.
01. Frame
The enamel frame of the Mute Box is available in various graded colors that can highlight the style you want to impart to your space. Tangerine or China Blue? Your choice.

02. Laminate walls
The Mute Box’s side panels are laminate. The 13 finishes of the Artopex finish card are at your disposal to match the Mute Box to nearby furniture.

03. Glass walls
The back wall of the Mute Box is built with double glass with a 3 inch air chamber to optimize the acoustics.

04. Single glass door
The 10mm glass door will give you the acoustic comfort you need. With its reversible handle, you have even more options when planning its interior or choosing its location.

05. Carpet floors
The Mute Box’s carpet is commercial grade and also acts as a soundproofing material. Two choices of colors are at your disposal.

06. Soundproof felt walls and ceiling
Mute Box’s class A high density felt creates an ecosystem that is sheltered from outside noise through its superior acoustic properties. Available in 2 choices of colors.

07. Ventilation
The Mute Box offers superior ventilation. An important feature to preserve concentration and alertness. Air flow can be set and adjusted to your wishes.

08. Light and switch
The light switch installed in the Mute Box offers LED light dimming and ensures the product’s longevity.

09. Multi-outlet
Two multi-outlet options are available, one of which can be installed under the shelf to clear the work surface.

10. Optional furniture
Even though you can choose the furniture you want for your Mute Box Solo, two stool models have been designed specifically for the Solo booth: the Vortex Lab with cushioned seating, and the Crema with a mono-shell seating available in three colors.

11. Laminate shelf
The Mute Box Solo can be ordered with a laminate shelf installed at a 42” height. Available in the complete range of Artopex laminate finishes.
The Solo as a duo, why not?

Mute Box Solo (2x)
Black enamel frame and hardware,
Mist felt and Light Grey carpet.

Furniture
Ginger Root laminate shelf and adjustable Vortex Lab stool.
The Mute Box for two to four people offers many layout and furniture choices to match your booth’s vocation.
