SEATING

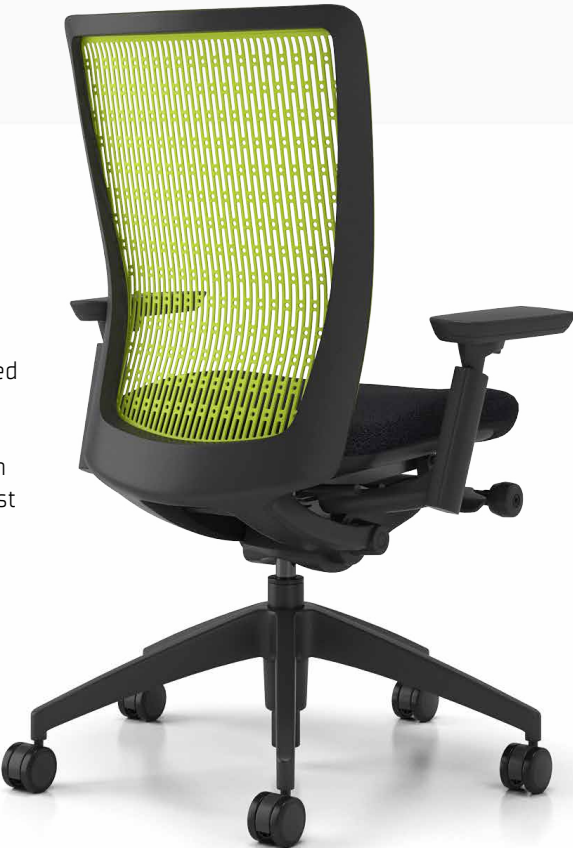

artopex®
the art and the purpose

YOUR COMFORT IS FRONT AND CENTER

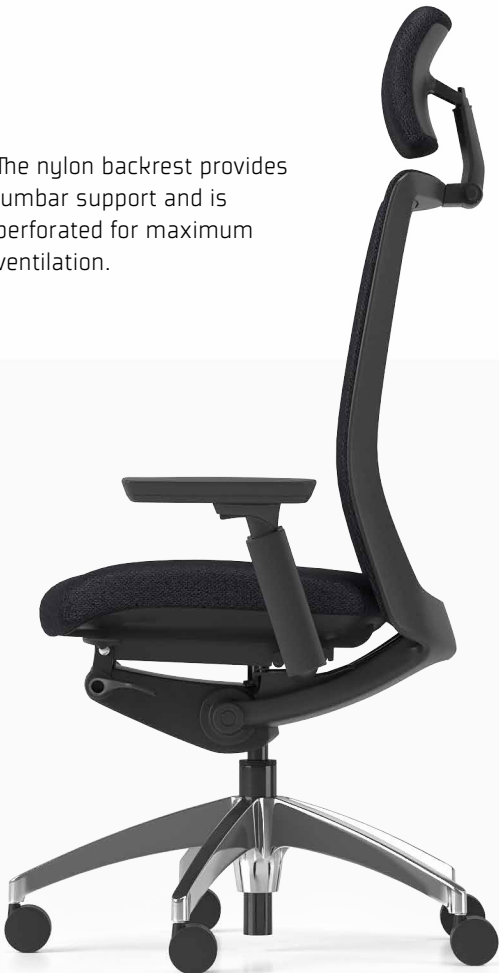

Comfort customisation makes it simple to accommodate your preferences. The fully-synchronized mechanism (tilt mechanism with multi-position locking), tension adjustment, seat height and depth adjustor, plus the optional headrest ensure all comfort requirements are met.

The nylon backrest provides lumbar support and is perforated for maximum ventilation.

The upholstered or mesh backrest options also provide support while bringing a different look and level of comfort.

HEADLINER

Headliner shines brightly in the office. Its many configurations allow you to give it prominent billing throughout your workspace. With eye-catching colors and a contemporary design, Headliner infuses energy and interest.

TAILORED TO YOUR NEEDS

In office, training room, classroom, break room, reception, waiting room, and cafeteria settings, the Headliner visitor seating performs brilliantly.

Stacking models are easily stored using the storage cart. Flip the seat of nesting models to stow.

Nesting

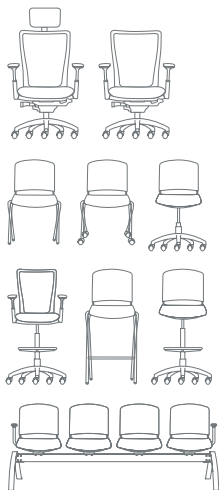

Stacking

The beam seating system adds flair to all types of waiting rooms. With configuration choices of 2, 3 or 4 places – plastic or upholstered seat and back, table and armrest options – the Headliner beam is outstanding.

*Designing, manufacturing, advising, planning
and supporting: that's the art that
distinguishes our purpose at Artopex.*
