

Installation Guide

September 2010

artopex®

nano transaction Shelf

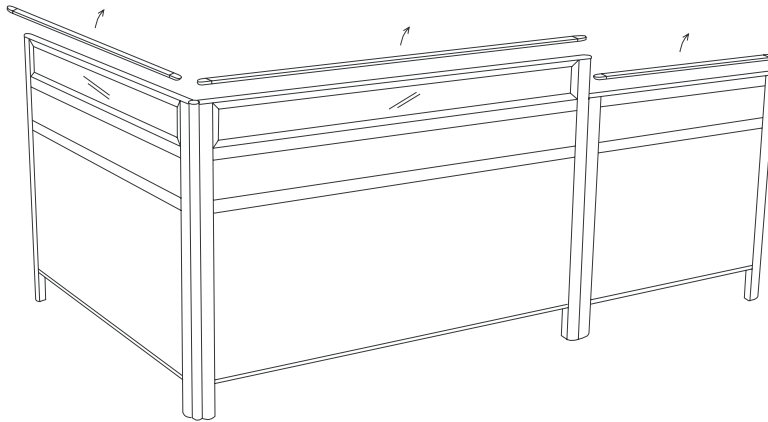

Index

- Installation of the Transaction Shelves p.2
- Positioning the Junction Plates and Supports p.3

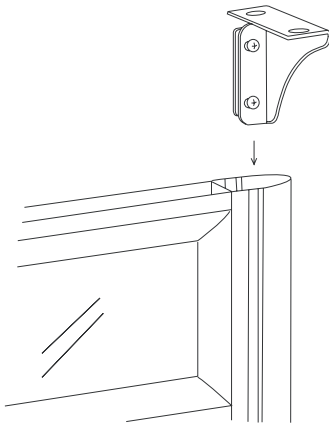

Nano

Transaction shelf

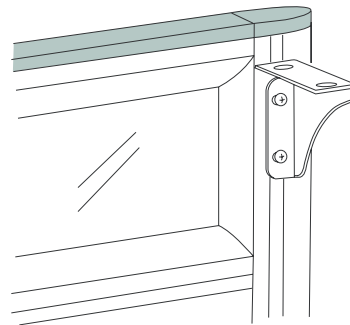

1. For all Nano panels that will have a transaction shelf, remove the horizontal top cap.

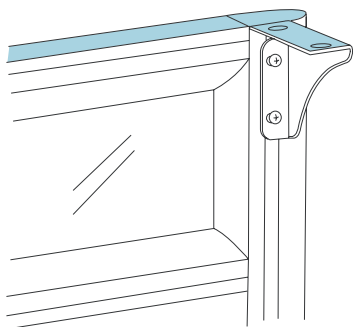

2. Insert the supports in the vertical channels of the panels and screw just until it is held lightly in place.

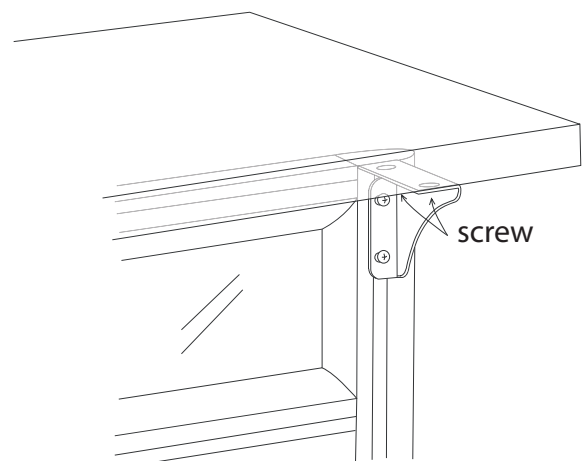

3. Replace the horizontal top cap on all of the panels.

4. Move the supports until they are positioned level with the top cap and screw tightly in place.

5. Place the transaction shelf on the supports and screw them together. Add junction plates if necessary.

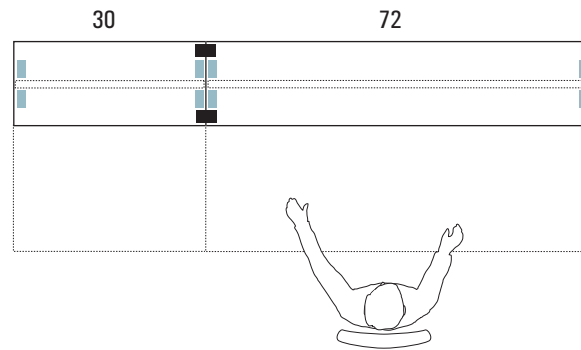

Nano

Transaction shelf

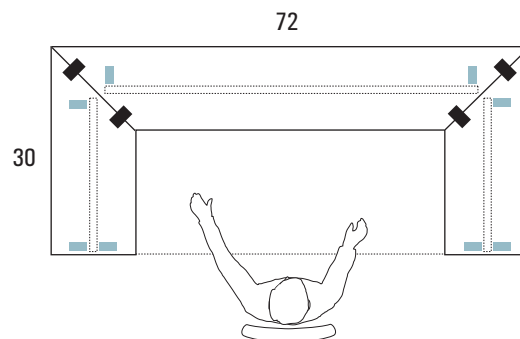

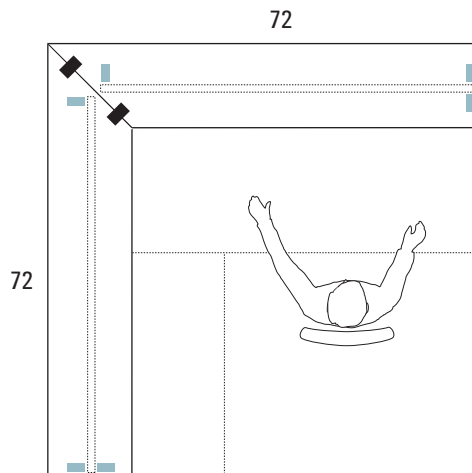

Please refer to the drawings below,
to place the the supports and the
junction plates in the appropriate locations.
