

AN ARM

AN - Adjustable arm with multi-axis armrest

Type

T-shaped arm with multi-axis adjustment on armrest (urethane), for task chair.

Description

- » Arm made of nylon.
- » Nylon attached with T-shaped armrest (urethane).
- » Firmness (armrest) : medium (3/5).
- » Front/back adjustment (armrest) of 2" (50 mm).
- » Lateral adjustment (armrest) of 3" (75mm).
- » Height adjustment of 3" (75 mm).

Adjustment procedure

- » While using the exterior button, slide the arm vertically to the desired height.
It is recommended that your arms form a 90° angle with the work surface.
- » While using the interior button, adjust the armrest close to your body, at desired position.
