

Type

- » Basic mechanism for conference or guest seating without tilt or back adjustment.
- » Heavy-duty, made of 2.5 mm steel.

Functions

- » 360° swivel on column axis.
- » Height adjustable (screw).
- » Compatible with the seat slide and adjustable back height option (options S, R and F).
- » Equipped with a 5" travel column (screw).

Adjustment Procedure

- » Using the knob on the column screw, adjust the chair height so your legs form a 90 ° angle at the knee height.
