

# Seating Component

## AX ARM

### AX - Adjustable arm with multi-axis armrest

#### Type

*T-shaped arm with multi-axis adjustment on armrest (urethane), for task chair.*

#### Description

- » Arm made of nylon.
- » Steel attached with T-shaped armrest (urethane).
- » Firmness (armrest) : medium (3/5).
- » Front/back adjustment (armrest) of 2" (50 mm).
- » Lateral adjustment (armrest) of 1½" (38 mm).
- » Height adjustment of 3" (75 mm).
- » Width adjustment of 3" (75 mm).
- » Easy to remove.

#### Adjustment procedure

- » Unscrew the knob under the seat and adjust the arm to the desired position (width).  
Screw the knob while maintaining the arm in place.
- » While using the exterior button, slide the arm vertically to the desired height.  
It is recommended that your arms form a 90° angle with the work surface.
- » While using the interior button, adjust the armrest close to your body, at desired position.

#### Offered on models:

- » Bodyfit
- » Dotcom
- » Loveflex
- » Lovepop
- » Wingo
