

Adjustable Tables II

artopex®

Benching configuration with adjustable tables

Lateral screens, privacy screens, single and double accessory bars as well as modesty panels (laminated or frosted) can be installed on adjustable tables.

Screens available in several heights.

Compatible with other Artopex furniture collections.

Concealed access to electricity

The addition of an electrical unit or systems panel provides access to 4-circuit or 1-circuit electrical systems and cable management.

Adaptable and versatile models. The adjustable table can evolve according to your needs by adding sections to gain more work surface.

Benefits of the adjustable table on productivity and well-being

Increases energy

Varying positions throughout the day naturally increases energy levels. Some studies also demonstrate positive effects on mood.

Stimulates concentration and productivity

Working in the standing position keeps you alert and improves concentration, helping to maintain and even increase productivity.

Improves posture

Working in the correct standing position helps to improve posture which can reduce muscular and skeletal system problems.

Good for the heart

Several studies show the positive impact of varying positions on different health issues such as cholesterol, type 2 diabetes and weight management.
