ESSENTIA COLLECTION

The Conference Collection is a comprehensive wood furniture line for meeting and conference rooms.

A variety of surface shapes is available: Rectangular, "Racetrack", Boat-shaped, Tapered, etc. Surfaces can be specified in the 17 colors of reconstituted wood (in 4 species)

Other finishes are available (lacquer finish, glass or Soft-Touch accents) and a choice of edge profiles is also available.

For the conference tables, the bases and surfaces are ordered separately. Multi-outlet can be added to the tables, according to the type of base used. Refer to the tables on p.20-21 to see the options related to the choices.

Essentia Conference room designs can be completed with work wall panels, accessories (shelf, bookends...) companion components (lectern, presentation boards).

The storage units (sideboards, cabinets ...) that complete the room can be specified with the electronic lock system, NOKI.

ESSENTIA CHARACTERISTICS

- Complements Essentia executive furniture
- Combination of materials:
wood, lacquer, Soft-Touch, glass and metal
- Reconstituted wood veneer: 4 species / 17 colors
- Semi-matte finish
- Choice of straight or reverse edge profile
- Thickness: 1 3/8"
- Central accent on table available in various materials
- Integrated blotters on selected surfaces
- Choice of arched or straight handle with satin chrome finish
- Integrated dampers on drawer slides
- Spring-loaded hinges with integrated damper
- Noki lock option
- Choice of materials on storage fronts
- Close-to-floor construction (1" H. kick plate)
- Horizontal wood grain (storage units)

OVERVIEW

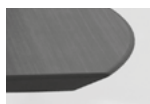

• CHOICE OF EDGE PROFILES

Two choices of edge profiles are available for the wood table surfaces.
The edge profile covers all sides of the surface.

"I" EDGE PROFILE (STRAIGHT)

Edge profile thickness is 1/8".

"V" EDGE PROFILE (REVERSE)

• ACCENTS

The main surface is always made of wood but a central accent can be added. The decorative accent is fixed and can accommodate one or more multi-outlet. The width of the accent is 8" but its length varies depending on the length of the surface. This accent is offered in various materials: lacquer, Soft-Touch or synthetic glass. Refer to the price list for availability.

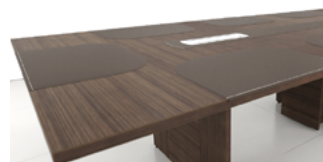

• BIDIRECTIONAL WOOD GRAIN

Certain components feature an innovative orientation of the veneers which we call the bidirectional wood grain. This detail is created by our talented specialists and is always created from the same species. This detail is found on the Duo wood gable and surfaces with bidirectional wood grain.

• BLOTTER

The Rectangular and Tapered surfaces can be ordered with integrated blotters. The blotters have a Soft-Touch finish and topstitching along the table edge. Dimension: 23" x 16" with rounded top corners. The number of blotters depends on the length of the surface. Refer to price list for availability. Surfaces with blotters can also be ordered with a central accent.

• BASES

The Essentia Conference series offers a selection of wood bases and one model of metal legs. Refer to Tables A and B on p.20-21 for options.

• MULTI-OUTLET

Various multi-outlet can be specified on the Essentia Conference table surface.
Refer to Tables A and B on p.20-21 for options.

OVERVIEW (CONT'D)

This series, made of reconstituted wood veneer, blends its wood elements to achieve the natural beauty of wood with consistency, high quality and finish stability. Combinations of white lacquered wood, Soft-Touch leather and white frosted glass each enhance the beauty of the surfaces and storage units of the series.

MATERIALS • RECONSTITUTED WOOD

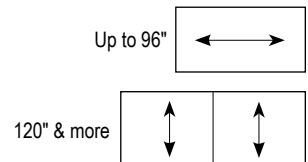

Warm, contemporary and distinctive, the Essentia Conference wood collection is also environmentally responsible in the use of reconstituted wood.

These linear veneers are made from fast-growing trees, limiting excessive harvesting of forests and rare species. Another major advantage is the lack of color variation allowing for continuity in the components and future additions. Since reconstituted veneers allow for the reproduction of rare species, the Essentia Conference series is available in walnut, oak, teak and zebra wood grains.

Essentia Conference's 17 colors originate from these 4 species (see Symphony color chart). The colors have a semi-matte finish (15° gloss) for a contemporary, natural look. Wood is the main material in the components of the series.

Essentia Conference table surfaces are 1 3/8" thick and are available in various shapes and sizes. The direction of the wood grain varies depending on the length of the surface. For surfaces 96" and under, the grain is parallel to the length of the surface, whereas for surfaces that are 120" and over, the wood grain is perpendicular to the length.

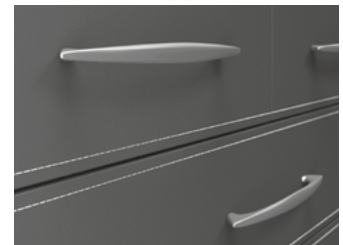

• LACQUER

The lacquer is opaque white; featuring a matte finish that is silky to the touch. The finish is highly resistant to stains and scratches that commonly occur in regular office use. It is available as the central accent on the surfaces, on the storage fronts and hanging shelves.

• SOFT-TOUCH

Soft-Touch is a vinyl fabric similar to leather that offers advantages of its own, for example, its increased rigidity facilitates writing when used on a blotter. It is also available on storage fronts and central accents. A beige top-stitching featured on the majority of components adds a high-quality finishing touch. Soft-Touch is available in black, brown, terra cotta or cream.

• GLASS

The glass used for Essentia Conference meeting tables (p.55 to 60) is tempered with polished edges and is 1/4" (6 mm) thick. The glass is clear but its exposed surface is acid treated and frosted. The opposite side is painted white making it opaque.

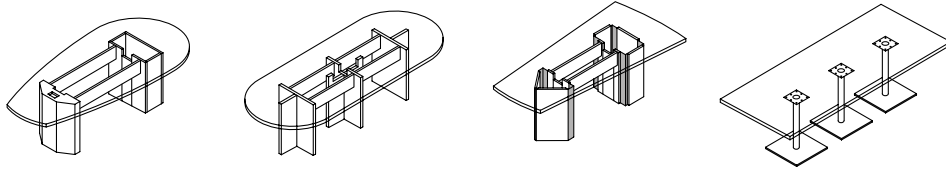

• SYNTHETIC GLASS

The synthetic glass is a resin panel 1/4" (6 mm) thick. The clear resin has a frosted finish and the opposite side is white making it opaque. Synthetic glass is used for the central accent, optional on some surfaces. Its finish is very similar to glass used on the meeting tables.

BASES

The surfaces are supported by wood bases or metal legs. Several configurations are possible including the following examples:

TYPES OF BASES The Conference Collection offers a variety of wood bases and one model of metal legs. Depending on the shape and size of the surface, a set of two or three bases with modesty panels must be chosen*. The wood bases are available in the 17 colors of the Symphony chart and the metal legs have a silver finish. All bases and legs are screwed directly below the surface and have adjustable levelers. Their position is predetermined to ensure the compatibility with other components such as multi-outlet and also to ensure maximum stability. An installation guide is available.

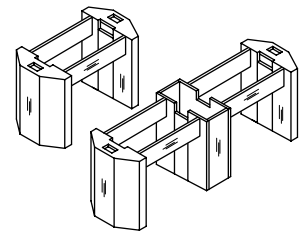

In order to choose the appropriate bases or legs for the chosen model, refer to the tables on p.20-21.

*These sets are predetermined for the shape and size of the selected surface. Modesty panels not available on metal legs. Refer to appropriate pages of the price list.

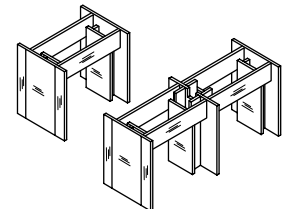

WOOD BASES • ALTO BASE SET

The Alto base has a vertical wood grain veneer. It is available in widths of 24" or 30" according to the requirements of the specified surface. The included modesty panels ensure the stability of the base. In sets of three bases, the central base is rectangular. The base allows the passage of cables and a removable panel provides access to the interior.

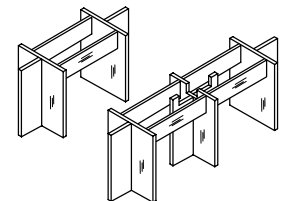

• DUO BASE SET

The Duo base has wood veneer with a subtle bidirectional wood grain detail. It is available in widths of 24" or 30" according to the requirements of the specified surface. The included modesty panels ensure the stability of the base. In sets of three bases, the central base is comprised of two narrow panels and one wide panel. The base allows the passage of cables and a door provides access to the interior.

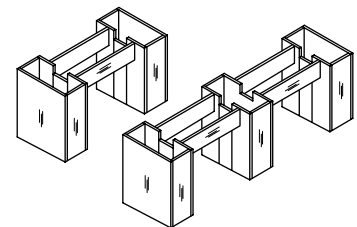

• X-BASE SET

The X-base has a vertical wood grain veneer. It is available in widths of 20", 24" or 30" according to the requirements of the specified surface. Included modesty panels ensure the stability of the base. In sets of three bases, the central base is comprised of a central X-base and T-bases at both ends.

• RECTANGULAR ARCHITECTURAL BASE SET

The rectangular base has a vertical wood grain veneer. The base is available with wood or metal corner edges (square or rounded), width of 21½", 24" or 30" according to the specified surface. Included modesty panels ensure the stability of the base. The base allows the passage of cables and a removable panel provides access to the interior.

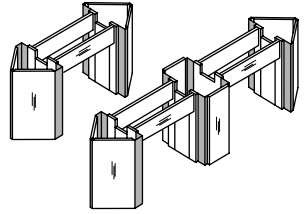

BASES (CONT'D)

WOOD BASES (CONT'D)

• TRIANGULAR ARCHITECTURAL BASE SET

The triangular base has a vertical wood grain veneer. The base is available with wood or metal corner edges (square or rounded), width of 21½", 24" or 30" according to the specified surface. The included modesty panels ensure the stability of the base. The base allows the routing of cables and a removable panel provides access to the interior.

In sets of three bases, the central base is a rectangular architectural base. For tapered surfaces, the base set includes a triangular base and a rectangular base, and the set of three bases includes one triangular base and two rectangular bases.

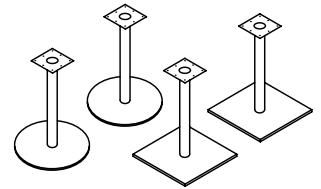

METAL BASES

• TUBULAR LEG SET WITH ROUND OR SQUARE BASE PLATE

The leg consists of a round tube 4" in diameter and a base plate with a diameter of 21", 24" or 30" according to the requirements of the specified surface. These legs have a silver finish.

The sets are available in heights of 28" (seat height), 35" or 41" (standing height). The 4" tube allows for the installation of a round multi-outlet (M2) and the routing of cables inside the tube to the ground, according to the specifications of the price list.

Adjustable levelers (under the base plate) allow the routing of cables to the periphery of the base plate. The dimensions of the base plate vary according to the width of the table.

MEETING TABLES

FEATURES

The meeting tables include the surface and the base unlike the conference table where the surface is sold separately from the base. The tables are round or square, wood or lacquer, with a straight (I) or reverse (V) edge profile. Round tables 48" and under are also offered with a glass top.

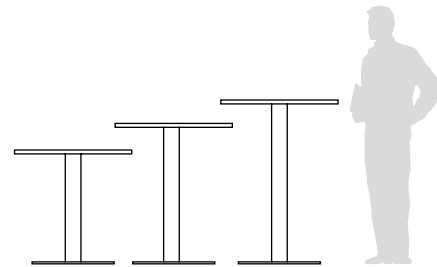

Some tables are available with a 10" x 10" square central accent. The accent is available in lacquer finish, Soft-Touch, or synthetic glass. The central accent does not allow for the addition of a multi-outlet.

• MULTI-OUTLET

Tables with wood bases can accommodate all types of multi-outlet. For tables with tubular legs with a base plate, only the M2 multi-outlet may be used.

No multi-outlet can be installed on these tables with a central accent. Refer to the additional information regarding multi-outlets on p.17.

• HEIGHT

The tables with tubular metal legs with round or square base plates are available in three heights: 29", 36" and 42".

• LOW TABLES 17" H.

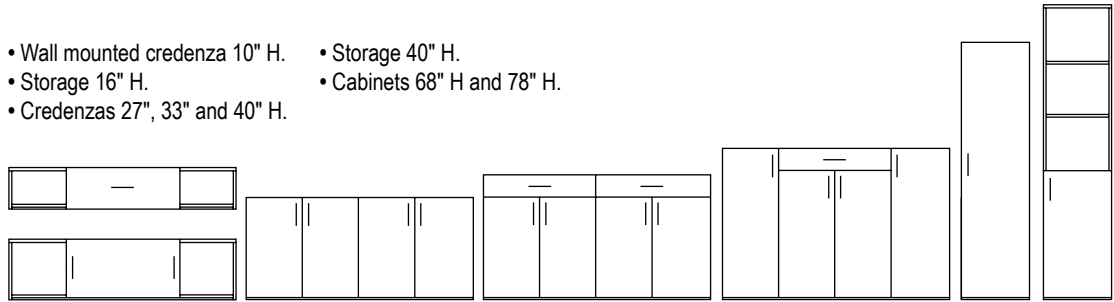

Round and elliptical low tables are available in wood or lacquer (or glass for the round table). These are equipped with a central tubular leg (4" diam.) with round base plate (18" diam.), silver finish.

STORAGE

The Essentia conference series offers several types of storage:

- LINE-UP**
- Wall mounted credenza 10" H.
 - Storage 16" H.
 - Credenzas 27", 33" and 40" H.
 - Storage 40" H.
 - Cabinets 68" H and 78" H.

FEATURES The storage consists of a wooden case with sides, bottom and back that are $\frac{1}{16}$ " thick. The top surface and shelves are 1" thick. The finish of the case is available in the 17 Essentia wood finishes on all sides; the wood grain is positioned horizontally. The inside of the drawer has a natural maple finish.

The storage fronts are $\frac{5}{8}$ " thick with a tapered edge giving the appearance of being $\frac{3}{8}$ " thin. All storage fronts are at ground level (kick plate 1"H) and adjustable levelers are less visible.

• FRONTS

The fronts of the ground level storage can be specified in wood, lacquer or Soft-Touch. The Soft-Touch finish always has a beige horizontal stitching $\frac{3}{8}$ " from the top and bottom edge of the front.

Wood front

Lacquered front

Soft-Touch front

• HANDLES

All storage fronts have handles. The sliding door on ground level storage 60" and 72" long has two handles. Arched or straight handles are available. The metal handles have a satin silver finish, and a center to center length of 7½" (192 mm).

Arched handle

Straight handle

• SLIDES

The storage drawers are fitted with ball bearing slides and integrated dampers for gentle closing of the drawer.

• HINGES

The swinging doors on storage are equipped with spring hinges and the same integrated damper as the drawers. Depending on the height of the door, two or more hinges are installed.

• LOCKS

The Noki lock, exclusive Artopex, is available as a no charge option on most storage and must be specified. One lock per cabinet is installed, refer to the product description for availability as well as p.19 for details. Sliding doors do not have a lock option. No key lock is available.

• CUTLERY TRAY

A maple finish cutlery tray can be specified as an option in the right-hand drawer of some sideboards where codes permit. Refer to the product description for availability.

• CREDENZA GROMMET

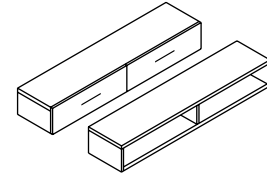

It is possible to add a grommet in the back of the credenzas when stated in the price list. Factory-installed, it is round, 2½" diameter, black finish.

STORAGE (CONT'D)

FEATURES Wall mounted hutches are available in widths of 30", 36", 54", 60", 72" in different models (with drawers or open).

They are attached directly to the wall with a system that allows for a slight adjustment, should the wall not be perfectly straight.

Wall mounted hutches cannot be installed on wall panels. A grommet is optional on open wall hutches.

WOOD WORK WALL

Wall panels add character to meeting and conference rooms. They are attached to the wall and allow the routing of cables in the back.

The upper part of a wall panel can be used alone, with panels on each side or be completed with a lower wood work wall of the same width (sold separately).

The panels are available in the 17 wood colors of the Symphony chart. The direction of the wood grain is horizontal. Different types of panels are available for the upper section. All panels are equipped with wall mounting brackets.

UPPER WORK WALL

- 2 heights: 35" or 45".
- 8 widths: 30" to 72".
- Thickness: 2"

Types of walls:

WOOD WALL

- Made of a 2" thick wood veneer panel.
- A television screen can be attached.

WOOD WORK WALL (CONT'D)

WALL WITH INTEGRATED ACCESSORY BAR

- 2" thick wood veneer panel with one or more integrated accessory bars.
- Available (according to the height) with one or three accessory rails (35" H.) or four accessory bars (45" H.).
- The bars can be used to hang shelves or Artopex accessories (not adapted to attach a television screen).
- The bars are finished in anodized aluminum.
- The upper and lower edges of the panel are edged in the same color as the specified wood finish, while the sides are edged in aluminum which covers the ends of the accessory bar.
- A television screen can be installed on the wood section.

WHITE MARKERBOARD WALL

- Comprised of high quality porcelain plated sheet section inserted into a wood frame.
- The surface of the board is magnetic.
- Non-permanent markers and eraser included.
- A magnetic aluminum tray for the markers and eraser is available and sold separately (see p.75).

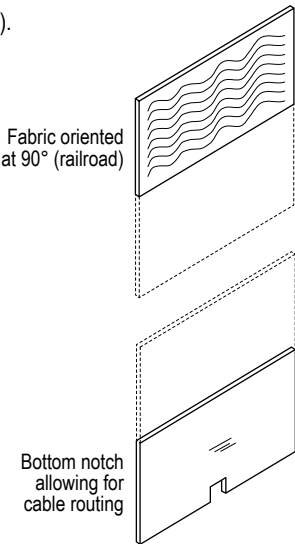

TACKBOARD WALL

- Tackboard panel 2" thick.
- The tackboard is covered with fabric (see current Artopex panel fabric chart).
- The position of the fabric is always oriented at 90° (railroad).

LOWER
WORK WALL

- Available in wood.
- Height: 33".
- 8 widths: 30" to 72".
- Thickness: 2".
- Cannot be used alone.
- Must be specified with an upper work wall of same width.
- When placed under a 45" H. upper work wall, total height will be 78".
- When placed under a 35" H. upper work wall, total height will be 68".

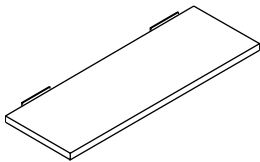

Option: The base of the panel can be ordered with an 8" x 9 ½" notch allowing the routing of cables from a credenza to the wall.

COMPLEMENTS

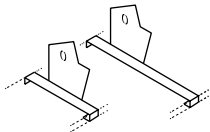

SHELF

- Can be installed on the wall panel accessory bars.
- Depending on its length, two to three supports finished in anodized aluminum are included.
- The shelf is 1" thick and is available from 24" to 72" long by 6" or 10" deep.
- It always has a straight edge and is available in either wood or white lacquer finish.

BOOKENDS

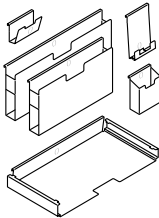

The bookends are painted metal (refer to the table below for available metal choices.) and fit on either the 6" or 10" deep shelves (described above). Sold in pairs.

METAL	
Abyss (3113)	Grenadine (3044)
Amber (3108)	Polar White (3002)
Black (3067)	Silver (3090)
Charcoal (3064)	Smoothie (3109)
Fossil (3102)	Source (3106)

PLASTIC OR METAL
ACCESSORIES

Various metal and plastic accessories can be used on the accessory bar. See Accessory price list.

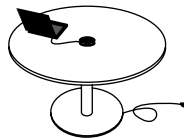

ELECTRICITY AND CABLE MANAGEMENT

The Essentia Conference Collection offers various electricity and cable management solutions. Round, recessed or pivoting multi-outlet options are available for the majority of surfaces and can be specified as required: left, right or center, refer to the price list.

- MULTI-OUTLET** The multi-outlet presented below cannot be ordered separately. They must be ordered when specifying the surface.
Only one model of multi-outlet can be specified per surface.
 *Tables A and B (p.20-21) indicate possible positions according to the chosen base.

ROUND MULTI-OUTLET (M2)

- Dimensions: 4¼" dia. on the surface (3½" dia. opening)
- Two electrical outlets (6' electrical cord)
- Two communication outlets (cat. 5^e, wires not included)
- UL certified
- Black finish

For tables with tubular legs with base plate, only the round multi-outlet (M2) can be installed. Cables are routed inside the tube of the leg.

RECESSED MULTI-OUTLET (M3)

- Dimensions: 5½" x 11½" on the surface
- Three electrical outlets (6' electrical cord)
- Three cut-out openings for communication connections
- UL certified
- Anodized aluminum
- For use with wood bases only

PIVOTING MULTI-OUTLET (M4)

- The multi-outlet opens and closes with a switch.
- Dimensions: 4½" x 16" on the surface
- Three electric outlets (power cord: 6')
- One communication outlet (RJ45)
- One phone jack (RJ11)
- Two audio jacks 3.5
- One VGA outlet
- One HDMI outlet
- One USB outlet for charging (2.1A)

- Cables included for all outlets
- Canada UL Certified and UL USA
- Anodized aluminum finish
- Sensor prevents rotation when the electrical outlets and VGA are in use.
- For use with wood bases only

The configuration of the M4 multi-outlet cannot be modified.

MULTI-OUTLET POSITION

The installation position of the multi-outlet varies according to the shape and size of the table surfaces and bases used.

The position of the modules suggested in the price list respect the following conditions:

- The multi-outlet are aligned with the bases which allows the routing of cables **OR**
- The multi-outlet are hidden by modesty panels.

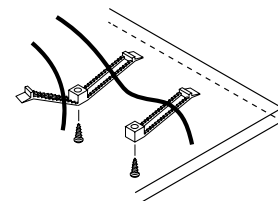

All other positions are not recommended by Artopex.

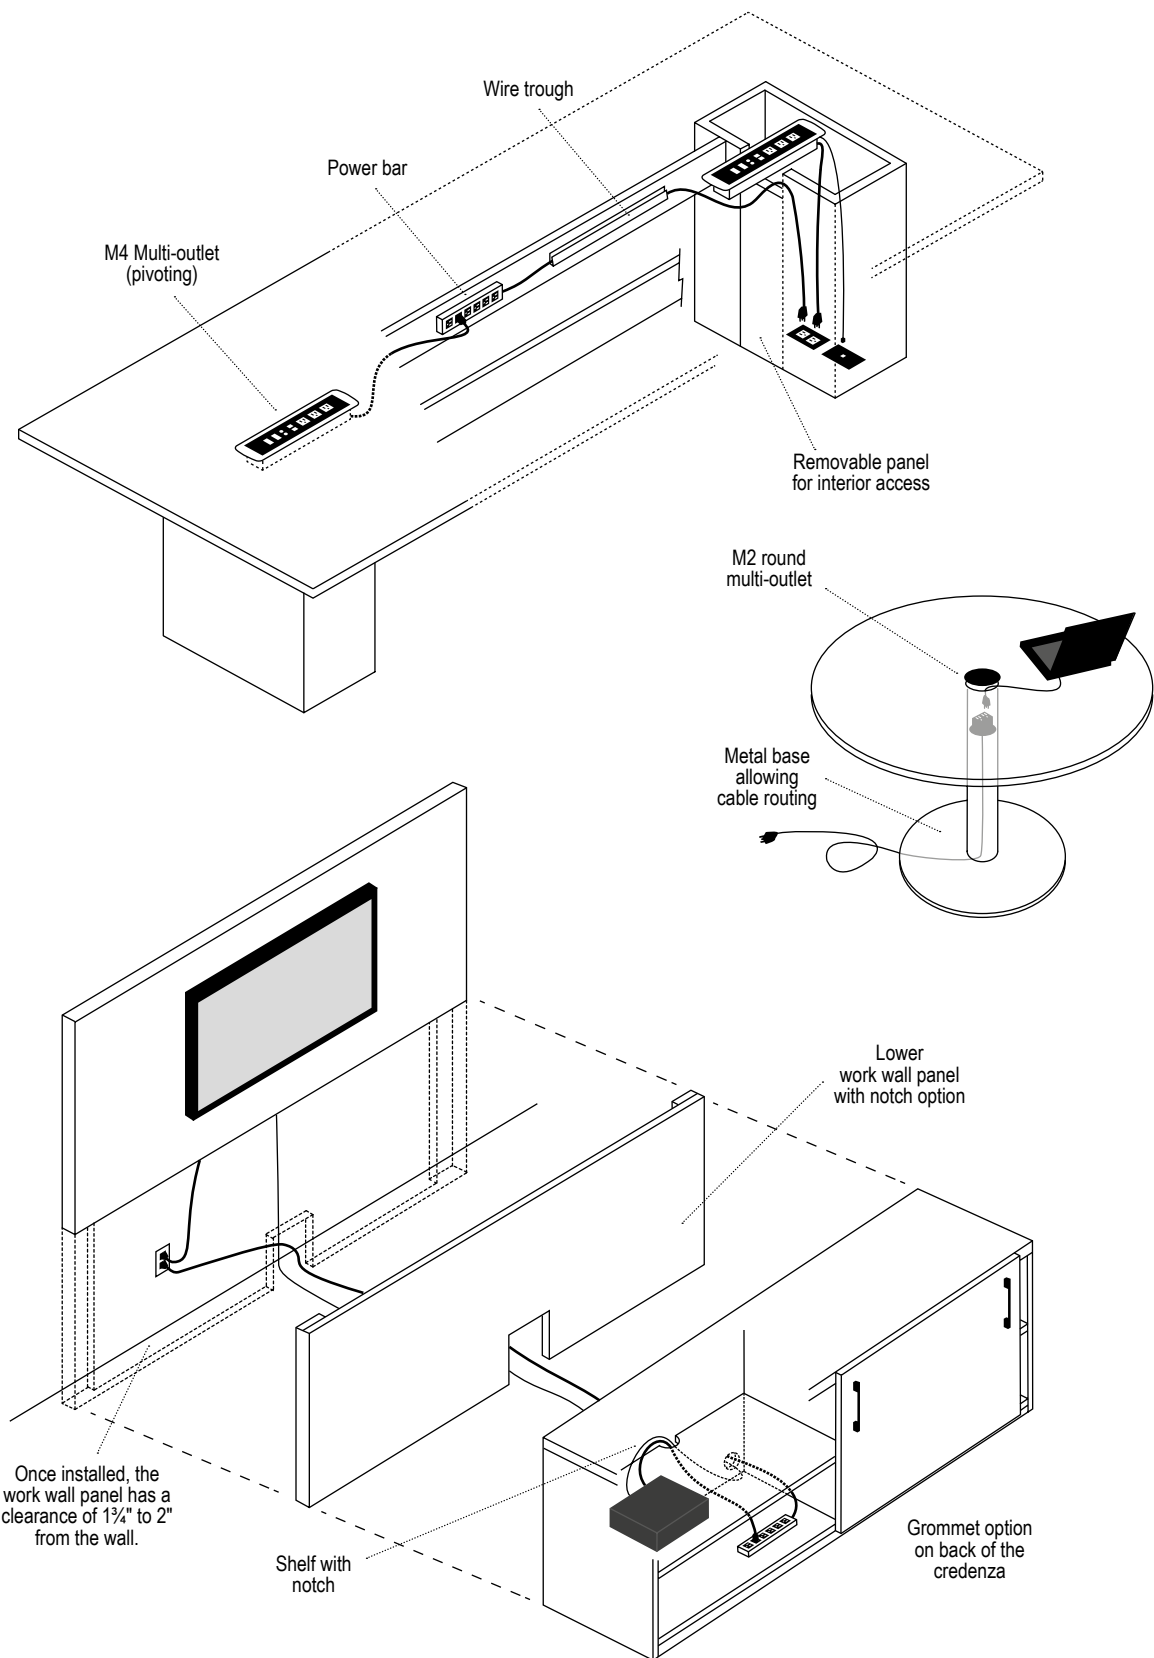

Refer to the tables on p.20-21 for the choices available and restrictions that may apply.

CABLE MANAGEMENT

Cable troughs (AC-AC and WR24-LW24-F) or cable fasteners may be used to route the cables under the surface, along the modesty panels, legs or storage.
 See Accessory price list.

ELECTRICITY AND CABLE MANAGEMENT

NOKI ELECTRONIC LOCK

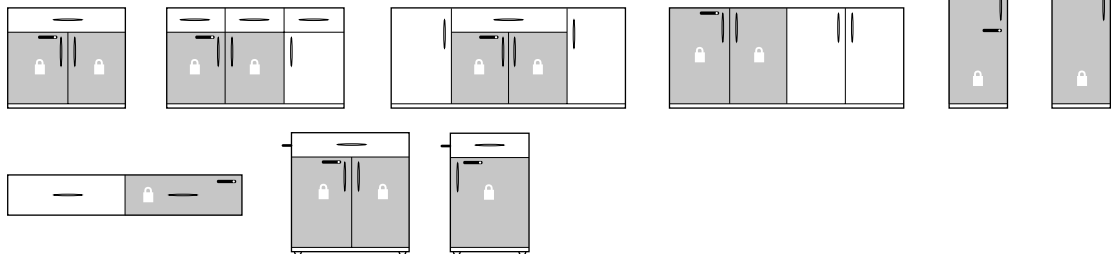

Essentia Conference storage units are not equipped with a lock. Artopex's Noki electronic lock is optional on most storage units at no extra charge, but must be specified as an option. Key lock not available.

Only one lock is installed per product to lock the hinged doors. Glass doors, sliding doors and drawers (except wall credenzas with drawers) have no lock option.

POSITION & LOCKING

 Lockable section

COMPANION COMPONENTS

Additional practical and functional elements are available to complete the conference room. They are available in the 17 wood colors of the Symphony chart.

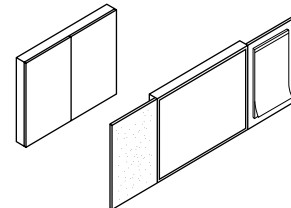

LECTERN The lectern is composed of wood panels and metal studs with a silver finish. It has a base with casters, two with brakes. The top shelf is tilted and a grommet allows the routing of cables. A horizontal bottom shelf is fixed and can store presentation material. Under this shelf, a door provides access to an included multi-outlet (AC-UPE) and a support for wrapping excess cable.

The included AC-EPU module features:

- Two electrical outlets, one 13 amp circuit-breaker, surge suppressor, an RJ-11 outlet and an RJ-45 computer outlet cat. 5th
- 108" electrical cord
- 162" communication / data cord
- CSA certified

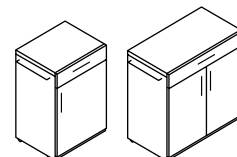

PRESENTATION BOARD The presentation board, available in two formats, includes a magnetic white surface for dry-erase markers only. A tackboard in a neutral colored fabric (21" x 34") is located inside one of the doors and a large pad of paper (20" x 36") can be attached on the other door. A tray with six markers and an eraser are included. The tray may be attached, if desired, by an adhesive strip.

SIDEBOARD Two sideboard formats are available: 24" and 36" wide with a height of 36".

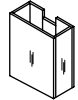

The sideboards have four recessed casters. A handle on the left side of the sideboard allows the cabinet to be moved about the floor easily. A cutlery tray is included in the drawer of the sideboard.

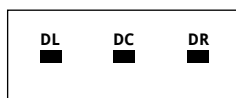

** Artopex offers a variety of ergonomic accessories such as keyboard trays, lamps, letter trays, etc. Unless otherwise indicated, these can be used with Essentia Conference furniture. Consult the Accessory price list on our website at www.artopex.com.

Colors can be viewed on the wood finish Symphony chart, available from your distributor or on our website.

Wood is a natural material that may have some variations in color depending on the selected species. Although every effort is made in the selection and finishing of the veneers to insure a uniform finish application, Artopex cannot guarantee that all finishes will be identical. Wood will naturally age over time which will change its finish appearance. Exposure to outdoor light can enhance this variation.

racetrack surface with bidirectional wood grain

Description

Racetrack surface with bidirectional wood grain for conference table.

Bidirectional wood grain area on surfaces 72" & 84" is 9" wide. On surfaces 96" & more, this area is 12" wide.

The surface is available in wood with a choice of two edge profiles.

Base set must be ordered separately, see p.48.

Multi-outlet option, see p.17.

Multi-Outlet option:

bases

ALTO wood base- 28" H.

Note: Select the base set according to the chosen surface.
Refer to tables A & B shown on p.20-21.

price list

Description

A set is comprised of two or three bases depending on surface length.

6½" H. modesty panels are included to ensure base stability.

For sets with three bases, central base is rectangular.

A removable panel on the base allows access to interior cable routing (from table top to the floor).

Use plastic fasteners or AC-WR24 wire trough to secure cabling to the modesty panels, see Accessory price list.

work walls

price list

lower work walls

Description

Lower work wall, must be placed below an upper work wall of the same width (sold separately).

Available in wood, mounting brackets included.

When placed below a 45" H. upper work wall, the total height will be 78" (same height as the 78" H. cabinets).

When placed below 35" H. upper work wall, the total height will be 68" (same height as the 68" H. cabinets).

The notch option allows cabling routing through the base of the work wall, from the credenza to the office wall.

Prices and Payment

All prices shown in this price list are suggested retail prices and are subject to change without notice. Prices do not include installation and shipping costs. Taxes are extra. These prices are guaranteed for 30 days from the date of quotation and are firm and final after acceptance of the order. Orders are invoiced at the time of shipment. Terms of payment are net 30 days from date of invoice. Any products sold by Artopex shall remain its property until fully paid in cash. In the event that the purchaser defaults in the payment of any sum due to Artopex, or in the event the purchaser's financial condition becomes unsatisfactory to Artopex, Artopex reserves the right upon notice to the purchaser, to defer or discontinue shipment of any goods or, to refuse any order until such time as the default is corrected or the purchaser provides assurance of payment to Artopex.

Orders

Artopex requires that all orders be submitted in writing to avoid errors and/or duplication. The purchaser is responsible to submit complete orders. Incomplete or incorrect orders (finish colors missing...) will be processed upon reception of the complete information and normal production lead-time will be applied from the date that the complete information is received.

Acknowledgments

Orders will be acknowledged with Artopex acknowledgement forms governing the transaction. The details appearing on this acknowledgment will describe the items to be shipped to the purchaser and the ready to ship date (not the actual shipping date). It is the purchaser's responsibility to verify that the acknowledgment information is correct. The purchaser must notify Artopex in writing of any errors within 48 hours. Corrections after 48 hours could be subject to extra charges (see Changes and Cancellation).

Changes and Cancellations

Order cancellations or changes are subject to acceptance by Artopex. Special order items and upholstered items (standard or COM fabrics) already in production are not subject to change or cancellation under any circumstances.

- A) Changes: Standard product already in production will be subject to a 25% change surcharge. Changes to the shipping date must be anticipated.
- B) Cancellations: Artopex reserves the right to invoice the purchaser for any items already in production at the cancellation date and for lost profit on the remaining items.

Storage

Artopex reserves the right to invoice the purchaser for storage charges in specific cases.

Shipping

- A) Prices are F.O.B. factory, collect.
- B) Artopex will choose the carrier unless otherwise specified by the purchaser. Goods will be handed over to the common carrier in good condition; Artopex liability ceases at this point. Deliveries will be done at the purchaser's unloading dock. The purchaser should have an unloading dock able to accommodate 53' trailers and must supply the unloading personnel.
- C) Claims: Artopex is not responsible for damage that occurs in transit or in storage. It is the purchaser's responsibility to examine goods upon receipt and to file any claims with the carrier. Failure to provide an adequate description of the lost items or damages to the carrier could result in the carrier's refusal to honor the charges. It is the purchaser's responsibility to obtain information on the carrier's claim policies and to send any claims to the carrier. For other policies, contact Customer Service.
- D) It is the purchaser's responsibility to file any claims even if the order has been shipped directly to the client.

Return of Goods

- A) No merchandise may be returned without Artopex written consent and shipping instructions. If this procedure is not followed, the merchandise will not be accepted by the factory and will be reshipped collect without further notice.
- B) Goods must be returned properly packaged and all boxes must be clearly marked with the authorization number.
- C) Return of items authorized by Artopex are subject to a charge of 25% plus freight (and customs, if applicable) and repair costs (if required).

Product Specifications

Artopex reserves the right to modify the specifications of products, materials, design or accessories without notice. Artopex also reserves the right to cease production of any product at any time. The products, accessories, materials and finishes as described in the price list prevail over the content of brochures or folders. The weights and volumes shown on the price lists include packaging and are approximations.

Noki Lock

Mechanism and parts under warranty for 5 years, and 1 year warranty on labor.

Artopex Warranty

Artopex products are warranted to be free from defects in design, materials and workmanship for as long as the original purchaser owns them.

If written notice of the defect is given to Artopex within the applicable warranty period, Artopex will repair or replace with comparable product, at Artopex's choice, without charge to the original purchaser, any part or product shipped after July 1, 2001, which fails under normal use as a result of such defect.

Non-standard products have a warranty of 1 year from the date of delivery.

On products warranted for a specified number of years of single shift usage, the warranty period will be reduced in a pro-rata manner when the products are used in a manner that exceeds the equivalent of a single shift forty (40) hour work week. Products used 24/7 or in high traffic public spaces such as airports and hospitals are covered by the warranty for 1 year from the delivery date.

This warranty is the Customer's sole remedy for product defect. This warranty does not cover damage by a carrier in transit. Artopex makes no warranties, including the implied warranties of market value or utility for a particular purpose, other than the express warranties contained herein. There are no other warranties express or implied. Artopex shall not be liable for consequential or incidental damages arising from any product defect.

This warranty does not extend to :

- Customer's Own Material (COM) or special finishes applied to Artopex products.
- Products which have been modified or have not been installed or used according to Artopex application and installation guidelines.

On products warranted for a specified number of years of single shift usage, the warranty period will be reduced in a pro-rata manner when the products are used in a manner that exceeds the equivalent of a single shift forty (40) hour work week.

This warranty is the Customer's sole remedy for product defect. This warranty does not cover damage by a carrier in transit. Artopex makes no warranties, including the implied warranties of market value or utility for a particular purpose, other than the expressed warranties contained herein. There are no other warranties express or implied. Artopex shall not be liable for consequential or incidental damages arising from any product defect.
