General information

GENERAL DESCRIPTION

The Genius series offers two types of training tables: fixed-top tables and flip-top tables.

The training table is composed of a rectangular work surface and two legs – tubular or contemporary. The fixed-top table is available with legs on casters or levelers, whereas the flip-top table comes only with casters. Under the fixed-top table, the legs are parallel to the work surface. Under the flip-top table, the legs are positioned at an outward facing angle of 20° for easy vertical stacking.

A adjustable table height is also available with fixed-top and tubular leg. It allows for a 10-position height adjustment, allowing ergonomic access to reduced mobility users.

Fixed-top table

- Tubular or contemporary legs
- Legs are parallel
- Legs available with levelers or casters
- Available with height-adjustable legs (tubular legs)

Flip-top table

- Tubular or contemporary legs
- Legs are positioned in a 20° outwards angle
- Casters legs

Two types of electrical systems are available: the 4-circuit system and the 1-circuit system. To accommodate these systems, two types of cabling trays are available as well as various multi-outlets and connection components. Complementary wire management accessories are also offered such as fasteners, cable conduits, etc.

A laminate or metal (with decorative perforated pattern) modesty panel can be specified on all tables. A locking bracket to link tables is also available, see the following pages for more details.

WORK SURFACES

The Genius training tables have rectangular work surfaces available in three lengths (48", 60" and 72") and two depths (24" and 30"). A corner surface is also available to link other tables in a 90° configuration. This corner surface is linked to adjacent tables using the provided hardware.

Technical Specifications

All work surfaces are 1" thick. They are made of pressed wood with laminated on both sides and finished with a 2.5 mm thick PVC edge in assorted colors to match the surface. The work surfaces can be specified in thermally fused laminate (**L1**) or high pressure laminate (**S1**). Rectangular surfaces have metal inserts on all four corners under the surface to accommodate locking brackets (see p.28).

It is strongly recommended to install a stiffener (see p.28) under all 60" and 72" long work surfaces.

Surface Directional Woodgrain

The woodgrain runs parallel to the length of the surface whereas the corner surface has the grain at 45°.

LEGS AND FOOTINGS

Legs are available in a tubular or contemporary design and offer a choice of levelers or casters as footings depending on the table model. Leg position under the surface is determined by pre-drilled holes, installation screws are included.

Tubular Legs

The tubular leg is made of 2" diameter metal tubing. The base is 23½" deep and has a "C"-shaped asymmetrical design. The height under the surface is 28". The leg has a Silver finish.

The adjustable leg allows for height-adjustment 22" to 31" under the work surface when with levelers and 25" to 34" when equipped with casters. In both cases, the height increment is 1". The leg has a Silver finish.

Contemporary Legs

The contemporary leg is composed of a steel base linked to vertical aluminum extrusions. The exterior decorative vertical cap is available in laminate or in metal. The base is 23½" deep and has a "C"-shaped asymmetrical design. The height under the surface is 28". The leg has a Silver finish.

The inside of the contemporary leg has a reversible vertical metal cap (Silver finish) allowing for cable passage when installed in one way and a closed finished at the bottom in the other way.

Exterior vertical cap offered in laminate or metal.

Interior vertical cap: Cap is reversible allowing for cable passage if desired.

LEG POSITION

Fixed-top tables

On fixed-top tables 48", 60" and 72" long, the center of the leg is positioned 6" from the surface edge.

Flip-top tables

On flip-top tables 48" and 60" long, the center of the leg is positioned 6" from the surface edge.

Flip-top tables

On flip-top tables 72" long, the center of the leg is positioned 12" from the surface edge.

FIXED-TOP TRAYS

Fixed-top tables can accommodate two tray sizes (attached directly under the work surface with screws and pre-drilled holes):

The full length cable tray for use with the 4-circuit system is available open or closed.

- The open design is a folded metal structure (4" wide and 8" high) available in three lengths (48", 60" and 72").
- The closed design has a flip access door in either laminate or perforated metal. This door also served as a modesty panel. It hides while allowing easy access to the cables.

The cable tray and the metal door have a Silver finish.

The narrow cable tray holds cabling of lesser dimension such as the 1-circuit electrical system cabling. It is a folded metal structure (5½" wide and 3" high) available in three lengths (30", 42" and 52") allowing to be installed between the legs of 48", 60" or 72" tables. This tray has a Silver finish.

FLIP-TOP TRAYS

Flip-top tables can only accommodate the narrow cable tray (used with the 1-circuit electrical system cabling). The tray is a folded metal structure (5½" wide and 3" high) available in two lengths: 30" (for the 48" table) and 42" (for the 60" and 72" tables). It is positioned between the flip-top mechanisms and is held in place by special brackets that must be screwed to the tray before installation. The work surface can flip freely since the tray is not attached to it. This tray and special brackets have a Silver finish.

MODESTY PANEL

A modesty panel is available in laminate or perforated metal. Installed on either the flip-top or fixed-top table, the modesty panel uses the same metal supports to hold it in place for both tables. Under the fixed-top table the supports are screwed directly to the work surface. Under the flip-top table the supports are attached to the flip-top mechanism. A 1¼" gap between the surface and the modesty panel allows for cable passage.

The 10" high modesty panel is available in three lengths (48", 60" and 72") and is 1½" thick. Note that all panels have ¼" less in length than the indicated nominal size to allow for adjustment.

GROMMET AND BUILT-IN MULTI-OUTLET POSITION

Fixed-top tables

On fixed-top tables **24"** and **30"** deep, the center of the grommet or built-in multi-outlet is positioned **4 $\frac{1}{4}$ "** from the surface edge.

Flip-top tables

On flip-top tables **24"** deep, the center of the grommet or built-in multi-outlet is positioned **7 $\frac{3}{8}$ "** from the surface edge.

Flip-top tables

On flip-top tables **30"** deep, the center of the grommet or built-in multi-outlet is positioned **10 $\frac{3}{8}$ "** from the surface edge.

COMPLEMENTS

Locking bracket

The locking bracket permits easy linking of tables without the use of tools. It is composed of a special junction plate and two tightening handles. Corner metal inserts are factory installed under all work surfaces to accommodate the pulls. Note that the 90° corner surface does not have the metal inserts because it must be linked to adjacent surfaces with the included hardware.

Vertical cable conduit (tubular leg)

This conduit holds the cabling (running from the cable tray) down the tubular leg to the floor. The conduit is metal with a Silver finish and can be clamped to all tubular leg tables (**TFT**, **TST**, **TFA**).

Ganging bracket

90° surface corner tables are easily reconfigured with the ganging bracket.

Stiffener

The 40" stiffener is strongly recommended underneath tables of 60" and 72".

ELECTRICITY

4-CIRCUIT ELECTRICAL SYSTEM

The Genius training tables can be fitted with the 4-circuit electrical system, identical to the one used in the electrical units of the Air Line series. It is composed of a harness, one (or more) duplex outlet, jumpers to link harnesses together, as well as various power feed cables. The 4-circuit electrical system must be positioned inside the full length cable tray (WCMF).

The 4-circuit electrical system can be power fed via a wall or floor access. Openings at both ends of the cable tray allow for the use of various types of power feed equipment. Power feed to this system usually connects to existing building electrical equipment and must be installed by an electrician. The 4-circuit electrical system is not available on flip-top tables.

ELECTRICITY (CONT'D)

ELECTRICITY - 1 CIRCUIT ELECTRICAL SYSTEM (WITH "MALE/FEMALE" CONNECTIONS)

The 1-circuit electrical system is ideal for a simple installation not requiring an electrician. It is composed of two types of surface multi-outlet (built-in or moveable), a power feed module and jumpers. Power feed is from a standard 120v. wall or floor outlet. A maximum of 8 surface outlet multi-outlets (16 outlets) can be connected to a single system.

It is recommended to use the 1-circuit system with support for its cabling in either type of cable tray. This system can also be used without the cable tray. The user will then secure cabling under the surface by using various cable management equipment such as fasteners, wire managers, cable conduits, etc., see Accessory price list.

The built-in surface multi-outlet (EC) cannot be ordered separately. It is offered as an option on all training tables (factory pre-drilled hole).

The EPOSK moveable surface multi-outlet is offered separately and does not require factory pre-drilling. It is attached to the surface using Velcro strips.

The ECMK mobile multi-outlet is offered separately. It is attached under the surface using the E2-EDT bracket or installed directly on the cable tray.

MULTI-OUTLETS (WITH STANDARD 120V CONNECTION)

The multi-outlets shown below present multiple ways to power-up electrical components (with 120v. conventional connection).

EPA Multi-outlet

Attaches to the surface with screw claws.

EPOS Multi-outlet

Attaches to the surface with Velcro strips.

EPU Multi-outlet

Attaches under the surface with screws.

ECM Mobile multi-outlet

Attaches under the surface using the E2-EDT bracket or directly on the cable tray.

UC Built-in multi-outlet

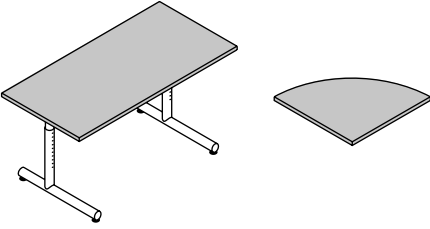

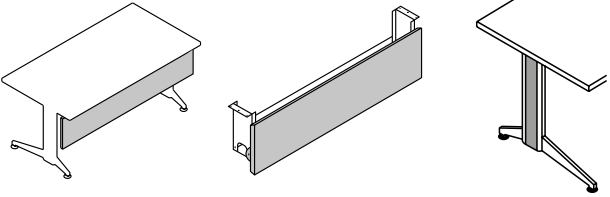

The built-in surface outlet (UC) cannot be ordered separately. It is offered as an option on all training tables (factory pre-drilled hole).

FINISH CHOICES CHART

This is the coding system to use in the specific fields of the list price with reference to choice of colors.
Some exceptions apply, see the charts below or finish charts.

 Colors, especially dark colors, may vary between Thermally Fused Laminate (T.F.L.) and High Pressure Laminate (H.P.L.).

			
WORK SURFACE		LAMINATE MODESTY PANEL / ACCENT	
T.F.L. (L1)	H.P.L. (S1)	LAMINATE	METAL
DOLOMITE FINISH	MAT FINISH		
Antique White (AW)	Antique White (AW)	Antique White (AW)	Abyss (3113)
Charcoal (F)	Cayenne Maple (CM)	Black (N)	Amber (3108)
Frost (A)	Charcoal (F)	Carbon (CB)	Black (3067)
White (BW)	Cherry (CH)	Cayenne Maple (CM)	Charcoal (3064)
	Chestnut (CG)	Charcoal (F)	Fossil (3102)
	Dark Oak (DK)	Cherry (CH)	Grenadine (3044)
SUEDE FINISH	Douglas Pine (DP)	Chestnut (CG)	Polar White (3002)

* Willow Grey: Matt finish, and not supermat finish like T.F.L.			

SPECIFICATION EXAMPLES

Located under each product is the "code specifier" that explains what information needs to be inserted to complete the order. The specifying code is normally divided into two zones: under the section "Specify" you must fill in all required fields whereas the "Option" section gives you the opportunity to add extra details to each product. The chart below explains the list of "specifics" and "options" that can be found under the products in the code specifier.

SPECIFY

- 1 Code**
Identify the selected product code. The code is composed of numbers / letters describing the product (identification, dimensions).
- 2 Footing**
Identify the type of footing: levelers (**N**) or casters (**C**).
- 3 L1/S1**
Identify the type of finish: 1" T.F.L. (**L1**) or 1" H.P.L. (**S1**).
- 4 Surface (or Laminate)**
Identify the work surface or laminate modesty panel color (assorted matching edges). Refer to the above listing for codes and to the current Artopex laminate finish card to visualize colors.
- 5 Accent**
Identify the color of the exterior vertical cap on contemporary legs. Refer to the above listing for codes, to the current Artopex laminate finish card or the current Artopex enamel finish card to visualize colors.

OPTIONS

- 6 Grommet / Multi-outlet**
If needed, indicate the option of the grommet or built-in multi-outlet (centered) on the table. Refer to product description for details.

CODIFICATION EXAMPLES

Shown here are codification examples applied to various products.

- Fixed-top training table**
- 24" x 72" table
 - Tubular legs
 - Levelers
 - 1" T.F.L. work surface
 - Surface color: White
 - With EC built-in multi-outlet option

electrical components

4-circuit system

price list

Harnesses for trays 48" to 72" long (4 duplex outlets).
Requires jumpers to link adjacent trays.
One jumper entry at each end of the harness. For two entries use the iE-Y coupling (below).

HARNESS

	Code	Price	Specification	
			Cu.Ft	lb
For a 72" tray	AL-HSS72	261	0.8	5.0
For a 60" tray	AL-HSS60	250	0.7	4.0
For a 48" tray	AL-HSS48	229	0.6	3.0

Carries power between two cables trays when jumping a third tray (without harness) placed between them.
The iE-i (female-female) must be used to connect two jumpers (male-male) end-to-end.
*The AC-EJS12 jumper is used in a 90° configuration.

JUMPER

	Code	Price		Specification	
				Cu.Ft	lb
To jump a 72" tray	AC-EJSK72	518	Actual length : 104"	0.2	5.9
To jump a 60" tray	AC-EJS60	272	Actual length : 82"	0.1	3.5
To jump a 48" tray	AC-EJS48	261	Actual length : 70"	0.1	3.0
For a 90° configuration	AC-EJS12	209	Actual length : 34"	0.1	0.5

AC-J21 carries power between two trays placed side-by-side.
AC-EJ18 carries power between two trays facing each other.

IN-LINE JUMPER

	Code	Price	Specification	
			Cu.Ft	lb
Length: 21"	AC-J21	101	0.1	1.0
Length: 18"	AC-EJ18	93	0.1	0.6

"i" coupling connects two jumpers end-to-end.
"Y" coupling connects a single harness to two jumpers.

COUPLING

	Code	Price	Specification	
			Cu.Ft	lb
"i" coupling	iE-i	64	0.1	0.5
"Y" coupling	iE-Y	88	0.1	0.5

4-circuit system (cont'd)

The wall power feed connector is a shielded flexible cable.
The AC-EC15 power connector must be installed by a certified electrician in accordance with local electrical codes.
Plugs in the terminal block of a HSS harness.
The AC-EC18 power connector can be plugged directly in the outlet for ceiling power feed connector by the user.

WALL POWER FEED CONNECTORS

	Code	Price	Specification	
			Cu.Ft	lb
180" (for electrical box)	AC-EC15	218	0.6	3.0
216" (for E2-ECWD outlet)	AC-EC18	384	0.7	4.0

Outlet for the AC-EC18 power feed connector allowing easy plugging / unplugging by user.
The box (not included) can be installed on the wall (at an approximate height of 20") or on the ceiling.
Must be installed by a certified electrician in accordance with local electrical codes.
It is then possible to plug the AC-EC18.

OUTLET FOR POWER FEED CONNECTOR

	Code	Price	Specification	
			Cu.Ft	lb
	E2-ECWD	257	0.1	0.2

The floor power feed connector is a shielded flexible cable used for a floor connection.
The AC-ECJ0 power connector must be installed by a certified electrician in accordance with local electrical codes.
Plugs in the terminal block of a HSS harness.

FLOOR POWER CONNECTOR

	Code	Price	Specification	
			Cu.Ft	lb
Length: 60"	AC-ECJ0	179	0.1	3.3

Attaches to a harness in the cable tray and gives access to one of the circuits.
Duplexes 1, 2 and 3 give access to general use circuits.
Duplex 4 is used for an independent circuit.
USB charger outlet gives access to 2 USB rechargeable outlets.

DUPLEX OUTLETS

	Code	Price	Specification	
			Cu.Ft	lb
Duplex outlet - Circuit 1	iE-DO1	25	0.1	0.5
Duplex outlet - Circuit 2	iE-DO2	25	0.1	0.5
Duplex outlet - Circuit 3	iE-DO3	25	0.1	0.5
Duplex outlet - Circuit 4	iE-DO4	25	0.1	0.5
USB charger outlet	E2-USB	227	0.1	0.5

Power supply module with "male" connection at one end and a 120v. for wall outlet at the other end.
Transformer with circuit breaker, surge protection indicator for the status of the power supply
(max 8 surface outlet modules).
Cable connection 120" in length.

POWER SUPPLY MODULE

Code	Price	Specification	
		Cu.Ft	lb
AC-ECFK	416	0.1	1.0

Jumper with "male" connections at both ends.
Used to link two built-in surface multi-outlets or two 1 circuit outlets under the surface.
48, 60, 72, 86" long jumpers carry power between tables placed side-by-side or in a 90° configuration.
24" long jumper: Carries power between two tables facing each other.

JUMPER

	Code	Price	Specification	
			Cu.Ft	lb
Length: 86"	AC-ECEJK86	139	0.1	1.0
Length: 72"	AC-ECEJK72	123	0.1	1.0
Length: 60"	AC-ECEJK60	110	0.1	1.0
Length: 48"	AC-ECEJK48	99	0.1	1.0
Length: 24"	AC-ECEJK24	76	0.1	1.0

Installs in a cable tray or under a surface using the E2-EDT support.
Provides electricity to the table without drilling a hole through the surface (to install a built-in outlet).
12" connection cable. End plug is comprised of three "female" connections.

ECMK MOBILE OUTLET

Code	Price	Specification	
		Cu.Ft	lb
AC-ECMK	113	0.1	1.0

FEMALE (3)

Moveable surface multi-outlet attaches with included Velcro strips.
The multi-outlet contains two outlets and two punch outs for communication outlets.
Connector and telecommunication wiring not included. Removable covers are included.
Cable connection 72" in length. The end of the cable connection has three "female" plugs.

EPOSK MULTI-OUTLET

Code	Price	Specification	
		Cu.Ft	lb
AC-EPOSK	245	0.1	1.0

EC Option sold with the table
Built-in surface multi-outlet (1 circuit) is not sold separately but is installed when **EC** option is specified on a table.
Cable is 144" long.
(Requires AC-ECFK power supply module)

UC Option sold with the table
Built-in surface multi-outlet (1 circuit with standard plug) is not sold separately but is installed when **UC** option is specified on a table.
Cable is 108" long.

Metal vertical cable conduit, Silver finish.
Clamps to the tubular leg of a TFT, TST or TFA table, shown on previous pages.

VERTICAL CABLE CONDUIT

	Code	Price	Specification	
			Cu.Ft	lb
Length: 18"	AC-WST18	71	0.1	1.0

Quick-lock bracket used to lock tables together.
Metal inserts are located under all table surfaces to accommodate the bracket.

LOCKING BRACKET

	Code	Price	Specification	
			Cu.Ft	lb
Length: 18"	GE-FLT	34	0.1	0.1

Ganging brackets used to connect a corner surface to two training tables in a 90° configuration. Changeable, reusable.
Shipped in packages of two, black finish.

GANGING BRACKET

	Code	Price	Specification	
			Cu.Ft	lb
	GE-CSGB2	95	0.6	1.5

Recommended for tables 60" and 72" long.
Installation hardware included, Silver finish.

STIFFENER

			Cu.Ft	lb
Length: 18"	GE-RSTF40	67	0.5	4.5

Prices and Payment

All prices shown in this price list are suggested retail prices and are subject to change without notice. Prices do not include installation and shipping costs. Taxes are extra. These prices are guaranteed for 30 days from the date of quotation and are firm and final after acceptance of the order. Orders are invoiced at the time of shipment. Terms of payment are net 30 days from date of invoice. Any products sold by Artopex shall remain its property until fully paid in cash. In the event that the purchaser defaults in the payment of any sum due to Artopex, or in the event the purchaser's financial condition becomes unsatisfactory to Artopex, Artopex reserves the right upon notice to the purchaser, to defer or discontinue shipment of any goods or, to refuse any order until such time as the default is corrected or the purchaser provides assurance of payment to Artopex.

Orders

Artopex requires that all orders be submitted in writing to avoid errors and/or duplication. The purchaser is responsible to submit complete orders. Incomplete or incorrect orders (finish colors missing...) will be processed upon reception of the complete information and normal production lead-time will be applied from the date that the complete information is received.

Acknowledgments

Orders will be acknowledged with Artopex acknowledgement forms governing the transaction. The details appearing on this acknowledgment will describe the items to be shipped to the purchaser and the ready to ship date (not the actual shipping date). It is the purchaser's responsibility to verify that the acknowledgment information is correct. The purchaser must notify Artopex in writing of any errors within 48 hours. Corrections after 48 hours could be subject to extra charges (see Changes and Cancellation).

Changes and Cancellations

Order cancellations or changes are subject to acceptance by Artopex. Special order items and upholstered items (standard or COM fabrics) already in production are not subject to change or cancellation under any circumstances.

- A) Changes: Standard product already in production will be subject to a 25% change surcharge. Changes to the shipping date must be anticipated.
- B) Cancellations: Artopex reserves the right to invoice the purchaser for any items already in production at the cancellation date and for lost profit on the remaining items.

Storage

Artopex reserves the right to invoice the purchaser for storage charges in specific cases.

Shipping

- A) Prices are F.O.B. factory, collect.
- B) Artopex will choose the carrier unless otherwise specified by the purchaser. Goods will be handed over to the common carrier in good condition; Artopex liability ceases at this point. Deliveries will be done at the purchaser's unloading dock. The purchaser should have an unloading dock able to accommodate 53' trailers and must supply the unloading personnel.
- C) Claims: Artopex is not responsible for damage that occurs in transit or in storage. It is the purchaser's responsibility to examine goods upon receipt and to file any claims with the carrier. Failure to provide an adequate description of the lost items or damages to the carrier could result in the carrier's refusal to honor the charges. It is the purchaser's responsibility to obtain information on the carrier's claim policies and to send any claims to the carrier. For other policies, contact Customer Service.
- D) It is the purchaser's responsibility to file any claims even if the order has been shipped directly to the client.

Return of Goods

- A) No merchandise may be returned without Artopex written consent and shipping instructions. If this procedure is not followed, the merchandise will not be accepted by the factory and will be reshipped collect without further notice.
- B) Goods must be returned properly packaged and all boxes must be clearly marked with the authorization number.
- C) Return of items authorized by Artopex are subject to a charge of 25% plus freight (and customs, if applicable) and repair costs (if required).

Product Specifications

Artopex reserves the right to modify the specifications of products, materials, design or accessories without notice. Artopex also reserves the right to cease production of any product at any time. The products, accessories, materials and finishes as described in the price list prevail over the content of brochures or folders. The weights and volumes shown on the price lists include packaging and are approximations.

Artopex Warranty

Artopex products are warranted to be free from defects in design, materials and workmanship for as long as the original purchaser owns them.

If written notice of the defect is given to Artopex within the applicable warranty period, Artopex will repair or replace with comparable product, at Artopex's choice, without charge to the original purchaser, any part or product shipped after July 1, 2001, which fails under normal use as a result of such defect.

Non-standard products have a warranty of 1 year from the date of delivery.

On products warranted for a specified number of years of single shift usage, the warranty period will be reduced in a pro-rata manner when the products are used in a manner that exceeds the equivalent of a single shift forty (40) hour work week. Products used 24/7 or in high traffic public spaces such as airports and hospitals are covered by the warranty for 1 year from the delivery date.

This warranty is the Customer's sole remedy for product defect. This warranty does not cover damage by a carrier in transit. Artopex makes no warranties, including the implied warranties of market value or utility for a particular purpose, other than the express warranties contained herein. There are no other warranties express or implied. Artopex shall not be liable for consequential or incidental damages arising from any product defect.

This warranty does not extend to :

- Customer's Own Material (COM) or special finishes applied to Artopex products.
- Products which have been modified or have not been installed or used according to Artopex application and installation guidelines.

On products warranted for a specified number of years of single shift usage, the warranty period will be reduced in a pro-rata manner when the products are used in a manner that exceeds the equivalent of a single shift forty (40) hour work week.

This warranty is the Customer's sole remedy for product defect. This warranty does not cover damage by a carrier in transit. Artopex makes no warranties, including the implied warranties of market value or utility for a particular purpose, other than the expressed warranties contained herein. There are no other warranties express or implied. Artopex shall not be liable for consequential or incidental damages arising from any product defect.

SUMMARY OF UPDATES

May 1st 2018

PAGES	SECTION	PRODUCT	MODIFICATION
p.2		Finish choice chart	Finish choices chart on page 2 was removed. Refer to the current Artopex laminate finish card for new finishes for this price list.
p.10 and 28	General info and Complements	Ganging bracket	New product.
p.13	General information	Finish choice chart	Laminate and Metal finishes updated. Refer to the new Artopex laminate and metal cards for new finishes and corrections.
p.17 and 19	Tables	Fixed-top and flip-top with contemporary legs	New metal finish choices for the Accent.
p.21	Modesty panel	Fixed-top or flip-top	New metal finish choices.
p.23	Cable trays	Full lenght cable tray + door for fixed-top tables	New metal finish choices.
p.24	Electrical components	In-line jumper	Code correction E2-EJ18 changed to: AC-EJ18.
p.25	Electricity	4-circuit system	Addition of the E2-USB socket.
p.25	Electrical components	4-circuit system	Code correction: iE-EC15 and iE-EC18 changed to AC-EC15 and AC-EC18.
p.28	Complements	Stiffener	Code correction: AC-RSTi64 and AC-RSTi52 changed to GE-RSTF40. Price correction.
	Electrical components	Outlet-bracket, multi-outlet EPOS, EPA, EPU and ECM.	All accessories have been removed from this price list, Refer to the Accessory price list.
	Accessories	Grommet, fasteners, wire management and junction plates.	All accessories have been removed from this price list, Refer to the Accessory price list.

Designing, manufacturing, advising, planning and supporting: that's the art that distinguishes our purpose at Artopex.
