Artopex is pleased to announce the launch of a new home office collection

Granby, Tuesday, July 13, 2020. Artopex is pleased to announce the launch of a new home office collection. This new collection includes three different models, including a height-adjustable desk. Open storage units on casters have also been designed to complete the product line.

"With the current situation whereby many professionals are working remotely today, the demand for home office furniture was sustained enough for us to channel our energies to develop a new range of products", explains Daniel Pelletier, President, Artopex. "These three models are manufactured in one of our factories and are delivered, unassembled," continues Mr. Pelletier. Inspired by Scandinavian design, these desks are offered at competitive prices and are available in a selection of various finishes for the surface and the legs.
